

Internet Business Activities

Name: _____

If you earn business income (clinic, health professional, independent contractor), please answer the following questions:

How many internet webpages or websites does your business earn income from?¹ _____

Enter the amount or "0", if none.

Provide the main webpage or website addresses (also known as URL addresses):

http:// _____

http:// _____

http:// _____

http:// _____

http:// _____

If you have more than five websites, indicate the addresses of the websites or webpages that generate the most internet income.

If you do not have a website but you have created a profile or other page describing your business on blogging sites, auction or market place or any other portal or directory sites, please indicate the address of the pages if they generate income.

Please indicate the percentage of your gross income generated from the webpages or websites. _____ %

If you have no gross income generated from the internet, please enter "0". If you do not know the exact percentage, provide an approximate ratio.

¹ You may earn income from your webpages or websites, if:

- You sell goods and/or services on your own webpage(s) or website(s). For example, your website includes a shopping cart and you process payment transactions yourself or use a third-party service.
- Your site doesn't support transactions but your customers call or make a purchase, place an order or make a reservation by completing and submitting a form or by emailing you.
- You sell goods and/or services on auction or similar sites operated by others.
- You earn income from advertising, income programs or traffic that your site generates. Such income would include revenues from:
 1. static advertisements you place on your site for other businesses;
 2. affiliate programs;
 3. advertising programs such as Google AdSense or Microsoft adCentre;
 4. other types of traffic programs.
